

Samaritan's Purse®  
INTERNATIONAL RELIEF

The people of Haiti have been living through a nightmare that few can imagine. Most survivors of the January 12 earthquake have lost family members and/or their homes. Now a new horror has entered into their lives, the threat of deadly diseases that flourish in the unsanitary conditions that Haitian people must endure in displaced person camps.

You can help a Haitian family combat diseases like cholera and typhoid by partnering with Samaritan's Purse to give them a hygiene kit. Each \$30 hygiene kit includes a month's supply for a family of five of bathing soap, toothbrushes, toothpaste, shampoo, feminine napkins, laundry soap, and dish washing detergent.

You also have the chance to personally encourage a family that has been devastated by the earthquake. With the purchase of a hygiene kit you may write and include a letter to the family receiving it.

To purchase your hygiene kit for a family in Haiti, please call Samaritan's Purse at 1.800.663.6500 or visit us at [samaritanspurse.ca](http://samaritanspurse.ca). Please also continue to visit our website for the latest on our long-term reconstruction efforts in Haiti.
