

## Turn on the Tap Education Resources Activity

### Loving Others List

NOTE: This activity should be done in conjunction with the Bible lesson, [Obeying God's Word](#).

**Age Group** Children in grades 3 – 6

**Materials** Print and provide the “Loving Others List” on the next page. Provide one to each child with instructions as to how they might fill it out. (Examples provided.)

**Activity** Each child should take the Loving Others List home and fill it in over a period of time. Each child should mark down each time he or she obeys Jesus' instructions to love our neighbor as ourselves.

**Reflection** This is intended to be a personal spiritual development activity and should not be treated as a competition. However, to engage discussion, a parent or teacher can gather children after a set period of time and ask if there are some who would like to share one example of how they loved their neighbor.

Here are some examples of what you could write:

Who is your neighbour?	How did you show Jesus' love?
Mom	Helping Mom clear the table after supper
Classmate at school	Sharing my favorite snack from lunch
Another kid in a poor country	Sharing my allowance to give to a charity
