

SAMARITAN'S PURSE WATER PROJECTS

Turning on the tap to safe water for communities. 

Samaritan's Purse Education Resources Activity

The importance of water

NOTE: This activity should be done in conjunction with the Bible lesson, [Living in Bible Days](#).

Age Group Children in grades K – 3

Materials Materials are selected by the leader according to the media in which the children will complete their artwork. Our suggestion:

- White paper
- Crayons

Activity Ask the children to draw activities they did that week: school, playing outside, eating fast food, visiting friends, playing sports, etc. Once the drawings are done, ask them to explain their drawings and make a list of the activities.

Reflection After the list is compiled, ask which of the activities they could not do, or would be sick from, if everyone was using contaminated drinking water.
